

QUICK FACTS

ROLLING LADDER HARDWARE

- Finishes available in Black, Oil Rubbed Bronze & Satin Nickel
- Ladder Weight limit up to 300lbs – 136kgs
- Ladder Hardware Kits
 - Rolling – once attached to the rail, it stays permanently on the rail.
 - Rolling Hook – this can be removed from rail whenever required.
 - Swivel – for using around curved rail (available in black only)
 - Single Hook
 - Double Hook
- Ladders available in 8' – 2438mm | 9' – 2743mm | 10' – 3048mm.
- Wood option for stocked ladders is Red Oak or Maple – custom ladders available upon request.
- Handrails are available in Red Oak and Maple
- Curved Rail available in black only
- Splice Kits join rails together to make desired rail length.
- Thread tap is required to tap the ends of the rails to screw the stop kit (end caps) into place
- Rail Length/ Brackets
 - 4ft Rail (1219mm) – 2 x brackets
 - 6ft Rail (1828mm) – 3 x brackets
 - 8ft Rail (2438mm) – 4 x brackets
- Step Supports – each kit contains 7 step supports which will cover an 8 ft ladder. 1 x additional step support is required for each additional foot. i.e., 9ft ladder needs 1 x additional step support, 10-foot ladder needs 2 x additional step supports
- All the wheel designs have a braking function. The brake is activated when weight is put on the ladder. The sensitivity can be adjusted.
